---

## SUMMARY

Full-stack developer with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and backend development. Experienced in building scalable MERN applications, REST APIs, authentication systems, and cloud deployment. Seeking a Software Engineering Internship.

## EDUCATION

**National Institute of Technology, Arunachal Pradesh**

2024 – 2028

B.Tech in Electronics & Communication Engineering

Expected 2028

**Bihar School Examination Board (BSEB)**

2023

Class XII – Science 79.2%

## PROJECTS

**E-Commerce Platform** | *React.js, Node.js, Express.js, MongoDB, JWT, Razorpay* June 2026

- Built a full-stack e-commerce app with product listing, search/filter, user authentication, and admin controls
- Implemented JWT authentication with HTTP-only cookies; designed role-based access for admin and users
- Integrated Razorpay payment gateway for order creation and payment verification, with order details visible to both users and admin as per role
- Used React Context API and hooks (useState, useEffect) for global cart and auth state management
- Designed RESTful APIs for products, users, and reviews; integrated MongoDB Atlas for cloud storage

Live: [shopeasy-ecommerce](#) GitHub: [Nishikantkumar192/shopeasy-ecommerce](#)

**Previous Year Papers Portal** | *Node.js, Express.js, MongoDB, Passport.js, EJS, Cloudinary* 2026

- Built a full-stack academic portal for NIT students to access previous year question papers by subject/year
- Implemented admin-only upload with Passport.js session auth
- Built a secure password reset flow with OTP verification and email-based authentication using Brevo, enabling OTP-based password recovery via email
- Integrated Cloudinary for secure and scalable paper uploads
- Designed REST APIs with CRUD operations; used MongoDB Atlas for scalable cloud data storage

Live: [previous-year-papers-portal](#) GitHub: [Nishikantkumar192/previous-year-papers](#)

**Wanderlust – Travel Listing App** | *Node.js, Express.js, MongoDB, EJS, Cloudinary* Dec 2025

- Developed a travel listing platform where users can create, edit, and review destinations
- Built secure MVC architecture with role-based authorization; only listing owners can edit/delete their posts
- Integrated Cloudinary for image uploads; deployed on Render with MongoDB Atlas

## TECHNICAL SKILLS

**Languages:** C++, JavaScript (ES6+)

**Frontend:** React.js (Hooks, Context API), HTML5, CSS3, Tailwind CSS, Bootstrap

**Backend:** Node.js, Express.js, Passport.js

**Database:** MongoDB, MongoDB Atlas, Mongoose

**Concepts:** REST APIs, MVC Architecture, JWT Auth, Session Auth, CRUD, OOP

**Tools & Platforms:** Git, GitHub, VS Code, Cloudinary, Render, Vercel, Hopscotch

## CODING PROFILE

Solved 85+ DSA problems on LeetCode – [leetcode.com/u/Nishi\\_kant\\_kumar](https://leetcode.com/u/Nishi_kant_kumar)
